| Company | Nurtured in Norfolk | Candy beetroot are best showcased when slow-roasted or steamed. They pair well with a wide variety of meats, spices & other veg. They can also be preserved by pickling, which offers an incredible flavour. The roots of candy beetroot are rich, earthy & sweet in flavour. The leaves are also sweet. The colour of the beet is due to betalin pigments, which has shown to detoxify the body & activate unwanted toxic substances. |
